MINNESOTA BULLETIN NO. 260-5-8

SUBJECT: INF – EARTH DAY 2005

ACTION DUE BY: MARCH 31, 2005

Purpose. To request information from NRCS offices about upcoming plans/activities.

Expiration Date. December 30, 2005.

Earth Day 2005 will occur on April 22, 2005. This is an excellent opportunity for people of all ages across the entire world to gather to perform environmental kindness and make a difference in the place that we live.

Earth Day is one of the very few non-religious holidays observed worldwide. On this day, people think about the importance of global environment and all that it gives us such as air to breathe, water to drink, food to eat, and trees for timber, paper, homes and furniture. Earth day is also a time to remember that we share the Earth, our home, with millions of other plants and animals.

If you have plans for an Earth Day activity in your local office, please email them to Julie MacSwain, Public Affairs Specialist, by March 21. Julie can be reached via email at julie.macsweeney@mn.usda.gov. Please include the name of the activity along with the date, the time and the location.

Earth Day is a time for people to think about how we can give back to the Earth that sustains us.

WILLIAM HUNT
State Conservationist
